DID YOU KNOW?

In the next 24 hours, 5000 Americans will try cocaine for the first time. Already, 12 million Americans use cocaine regularly, 90% of these say they are unable to refuse cocaine when available.

Today in America:

* 38 million people use illegal drugs. That's 1 in 5 teenagers and adults.

* 18 million adults are problem drinkers

* 8 million are chronic abusers of tranquilizers and other psych drugs.

According to The U.S. Chamber of Commerce, drug and alcohol abuse costs America \$177 billion a year.

And internationally:

Confidential government estimates report that international sales of illegal drugs exceed \$500 billion a year — more than the inhabitants of Earth spend on food or housing or education or any other service — three times the value of all United States Currency in circulation!

The Crisis: Drugs The Solution: Narconon The Plan: Chilocco

In mistreating drug addiction, psychiatry makes *billions*, destroying millions of lives in the process. For the first time in American history, a social matter — drugs — is the major concern for the population. The Narconon Chilocco New Life Center — an 80-building, 167-acre residential facility — is the biggest project in our history to create overwhelming public popularity for Drug Rehabilitation Technology developed by LRH.

Millions of corporate executives, opinion leaders, and professionals from all sectors of society now abuse or are addicted to drugs and alcohol. They urgently need an upstat place, free of psychiatry's destructive treatments, where they can be *fully* rehabilitated with 100% Standard Tech and then go on up from there.

Your donations are urgently needed to help codify and newly package all LRH's materials on drug rehabilitation and to get Chilocco operational now!

"I was finally able to map an easy road which could be travelled despite drugs, despite the starting point, and of course that made it easier for everybody.

"That road begins with the Narconon Course.

"I would feel pretty bad if a lot of good guys had to live with the road blocked."

L. Ron Hubbard
From letter written to Narconon.

PLANETARY DISSEMINATION OF LRH TECH:

Chilocco offers a unique opportunity for planetary expansion. Only LRH tech will *solve* the worldwide crisis of drugs. Narconon is *our* vanguard which can and *must* handle this crisis.

"Using the Narconon program with the appropriate funds, Narconon could rehabilitate 312,967,500 individuals in the average 6-7 month period... There is a very bright future ahead for all of us, and historians will trace it to this point... when the Scientologists took on their share of the load and moved out into society with the Technology."
